TYDDYN LLWYN CARAVAN & TOURING PARK

ALL YOU NEED TO KNOW ABOUT SITE WIFI

What is Wi-Fi

Wi-Fi is a radio signal that allows laptops and some mobile phones to connect to the internet without wires.

Site Coverage and Internet Speed

Coverage typically extends 50—100 metres from an antenna. Line of sight is ideal to provide the best signal. The speed of the connection is dependent upon a couple of points:

- * the number of users trying to use the service.
- * Heavy rain, tree leaves the metal body-work of caravans and some tinted windows / blinds, can effect the signal.

Logging In.

To use this facility you can buy a voucher in the bar/ office for three different durations. You will need to fill in a form with your full personal details for the prevention of crime and other associated legal reasons this information will be passed on to the relevant authorities if required. Once you have set up the connection you will be able to browse the internet, send and receive emails, chat on skype, social networking etc... When the duration of time which has been purchased expires your connection will cease and more time will need to be bought to continue.

To avoid disappointment, we strongly recommend that you try connecting to our WiFi network from the location you wish to use it, **BEFORE** you purchase a voucher. If you are able to access the login page from that location you should be able to surf the internet without any difficulty.

HOW TO GET ONLINE

- * After checking your signal, purchase a wireless access voucher from the bar / office.
- * Turn on your wireless device making sure the wireless facility is enabled.
- * Select Tyddyn Llwyn Hotel from the available networks.
- * Open your internet browser. Try opening a web page and the site wi-fi login page will now appear.
- * Enter the user name and password from your voucher.
